In the 5 months of a 6 months contract (I worked term-time only – I had four weeks off), I had the pleasure of creating new logos, as well as updating existing ones. Along with the client, I chose an updated colour palette and applied them across all current school logos in the academy.

Why consider Peter's Chilled Distribution service?	11

A local service on a national basis

A unique operation, Peter's Chilled Distribution service provides a diverse range of chilled foods, including – fruit and vegetables, butchery meats, milk and dairy products, savoury items, and an extensive range of other chilled food products, numbering many thousands of items.

We can provide this on a national basis, from the North of Scotland to the South West tip of Cornwall.

Peter's provide the practical solution for customers requiring frequent deliveries of high quality chilled foods.

Peter's – The Chilled Food Distribution solution

A service tailored to meet your needs

Peter's Food Service has over 30 years experience in the food service industry and in 1998 extended its distribution service to embrace the chilled food distribution solution.

Historically it has been the case that the food service industry has struggled to source a means of delivering a diverse range of chilled products on a national basis, giving consistency of quality and service. Peter's provide this solution, and currently supply many thousands of sites daily.

A unique service

The service is unique in many ways, firstly and most importantly, the service can offer flexibility to fit in with your specific requirements. Secondly, how many other organisations can offer such a diverse and extensive range of products on a national basis?

To allow us to provide such a service we have significantly developed our computer system, giving us the speed, flexibility and accuracy to enable us to capture your order, and to deliver it the next day together with a fully priced invoice, if required.

Currently providing a unique and valuable service to over 2,800 sites across the country that take advantage of our bespoke facility. A reliable and efficient method of supply, Peter's Chilled Food Distribution service delivers the goods.

CASE STUDY – Peter's Food

Consistent supply

Products nationwide at your request

We deliver to small or large sites five days a week, utilising one of our modern fleet of 300 temperature controlled vehicles. We have vehicles that range from 3½ tonnes through to 48 tonnes, so you can see that no customer is too small or large for us. We can provide this unique service by harnessing the key element to any successful business – the commitment of our employees to succeed in developing the most successful chilled food distribution service in the country.

Fresh solutions

Peter's provide a comprehensive product range to suit all catering needs. Specialising in short shelf life chilled products, Peter's provides a practical solution to customers requiring high quality, fresh products on a daily basis. By utilising our comprehensive logistical network, we can deliver the freshest ingredients direct to each site.

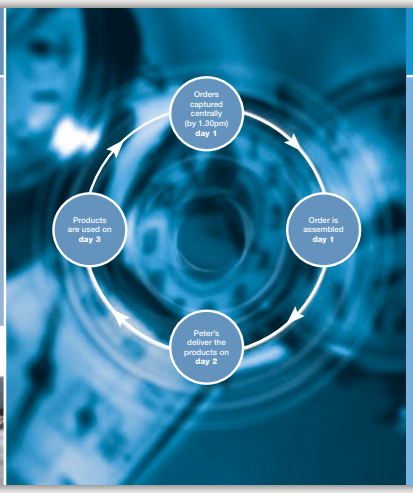

With over 30 years experience in the manufacturing and distribution business, Peter's has the depth of experience needed to provide a comprehensive and capable distribution service to outlets across the country.

Cycle of distribution

Using this procedure allows for good working practices commonly adopted in the catering industry, providing reassurance that the product is available for your use on the day.

The Peter's Chilled Distribution service gives you control of multi-sited operations, allowing you to be at the forefront of this new and exciting supply route in areas that have traditionally suffered from poor and inconsistent controls.

Placing an order

Telephone, fax or on-line ordering? The choice is yours

We can either:
telephone at an agreed time, when our Call Centre operator will contact the appointed person and capture your order.

Or if preferred:
fax through your orders, where one of our operators will take down the details and confirm that your order has been received and processed.

Or alternatively:
you can access our website and place your order directly onto our system using our customer friendly facility.

You would imagine that capturing such a broad range of products could be a problem. Not for Peter's.

A particular strength of Peter's is the personal attention each call receives, from the 50 experienced operators based centrally at our call centre in South Wales.

Logistics

Our fleet of vehicles make deliveries from a network of 14 regional depots, providing close customer support at all times.

We can provide such a broad range of products effectively due to the combination of a sophisticated computer system, the ability to utilise a national fleet of vehicles throughout the night, and working with efficient 'Just in Time' suppliers.

Why consider Peter's Chilled Distribution service?

- All those renowned difficult chilled products purchased by a professional team, dedicated to provide the customer with quality products
- Competitively priced range of foods
- Savings on administration, time and costs
- Only one delivery with one invoice, replacing inconsistent invoicing details or delivery notes
- National deliveries daily

Deliveries from Peter's Food Service Chilled Distribution

Your delivery will be made between 5am and 4pm on the required delivery day, on one of our modern fleet of temperature controlled vehicles. A vehicle temperature printout is available from your delivery driver.

We will endeavour to deliver to you at a time convenient to your requirements but we would suggest that you allow for issues outside our control. To ensure the chilled distribution system works for you, please adopt the following practice:

For your convenience and benefit:

- You will receive an itemised invoice which will accompany the goods delivered to you.
- Only one delivery vehicle, replacing up to six – more environmentally friendly.
- Less disturbance to your establishment.
- Temperature controlled assurance for peace of mind
- A delivery charge of £10.00 is applicable on each delivery, but as a company we offer a "No Minimum Order" policy to our customers.

On receipt of delivery, in the unlikely event that you should have a query with the produce received, the driver will issue an uplift note. If warranted, a credit note will be raised and forwarded to you. We regret that credits cannot be raised for claims made after 24 hours from the time of delivery.

iii if you have access to the world wide web you can order on-line between 8am and 1.30pm – please let your account manager know if you wish to use this facility. Using on-line ordering allows you to place your order 24 hours a day. Remember to place your order on-line by 1.30pm for next day delivery.

2 To avoid any confusion, due to the sheer number of products available, we operate a product code ordering system, whereby we require you to order using the relevant codes for each product. This greatly reduces the risk of errors and speeds up the ordering process. As a final 'double check' your order is read back to you by your order capture clerk using the product description which you can then check against the code you have ordered.

3 If your order is not ready for placement at the agreed time of calling, a repeat call will be made. Should we be unsuccessful at the second attempt at capturing your order, we then request you telephone the National Order Line on 029 2085 4938 before 1.30pm.

Peter's understand the time pressures you are under and appreciate it can be difficult to reach the phone at the allotted time on every occasion. However, we must stress that orders cannot be placed after the cut-off time of 1.30pm.

If the member fails to meet the standards of the Code, and the consumer suffers as a result, he or she has the right of complaint under an independent complaints scheme with which all GISC members must comply. Members of GISC are monitored independently to ensure they comply with the standards contained in the GISC Code, a copy of which can be obtained from the GISC at www.gisc.co.uk. Please note that the loan is not covered by the GISC private customer code.

Whilst parties to this insurance are free to choose the law applicable to it the insurers propose that this agreement shall be governed by English Law.

The FIRSTPLUS Payment Protection Plan

FIRSTPLUS

Providing you are at least 18 years of age at the start of your loan and under 65 at the end, living and working in the UK for at least 6 months and for at least 16 hours per week, you are eligible for Payment Protection Plan.

How does it work?

Accident, Sickness and Unemployment Cover – If you are unable to work for 30 consecutive days, an amount equal to your monthly Personal Loan repayment will be paid to FIRSTPLUS on your behalf. Thereafter you will be entitled to 1/30th of your monthly benefit for each subsequent day you are unable to work. Payments will continue to be made every month whilst you are unable to work until a maximum of 12 monthly repayments have been made, or you return to work, whichever happens first. The maximum monthly benefit payable is £1,500.

Life Cover – in the event of your death, Payment Protection Plan will pay the outstanding balance on your Personal Loan, less any arrears, subject to a maximum of £18,000.

Joint Cover

If you are the first named customer on the Personal Loan agreement, you can be covered for Accident, Sickness, Unemployment and Life cover. If you choose to pay for joint cover the second named person will receive Life Cover only.

I'm Self-Employed, am I Covered?

You are covered in the same way as an employed person for Accident, Sickness and Life cover and you may also claim under the Unemployment cover if you cease to trade, declare this to the Inland Revenue and register for Job Seeker's Allowance.

I work on a Fixed Term Contract

If you have been working on a fixed term contract with the same employer for at least 2 years, or on a yearly contract that has been renewed at least once, then we will treat you as if you were in full time employment.

If you do not fall into either of these categories, but have been with the same employer for at least 6 months and your contract has been renewed at least twice, then any monthly payments made under Payment Protection Plan would be made until the expected expiry date of your contract.

How many claims can I make?

There is no limit to the number of claims you can make. There is a maximum of 12 months per claim for disability and unemployment and a maximum of 24 months in total for all unemployment claims.

How do I claim?

Simply contact FIRSTPLUS Claims Service on 0870-243-9924 for a claim form. For unemployment claims, you must be out of work, be actively seeking work and have registered for Job Seeker's Allowance. For a disability claim, your doctor must certify that you are unfit for work. Full details will be provided in your policy document, which we will send you when your Personal Loan begins. A copy is available on request.

Are there any Exclusions?

As with all policies, there are some instances when a claim cannot be paid.
The main exclusions are:

Life

- Death from suicide within 12 months of the start of your loan
- Death within 90 days of the start of your loan from any condition for which treatment or advice was received during the 30 day period before your loan commenced;

FIRSTPLUS

with us because of our commitment to customer service.

Our vision statement says we want to surpass our customers' expectations.

Our customer care teams are dedicated to ensuring that our customers are happy with us throughout the life of their loan.

We call our service strategy Customer FIRST! We work hard to ensure our products, services and processes are all customer focussed, and we're constantly trying to improve our understanding of what our customers need and want to help us drive continual improvement.

We set annual targets for our performance and regularly review our processes to make the customer experience as good as possible. We reward members of staff who provide excellent customer service with monthly, high-profile awards.

But we don't rely on our own assumptions. The only way we can be really sure customers are happy is by asking what they think of our service, so we commission ongoing research to measure our performance and look for ways to improve.

Researchers regularly ask new customers what they thought of the service they received, and what factors influence consumers who decided not to take out a loan with us. They also speak to existing customers to monitor our after sales performance.

Information from all these surveys is used as the basis for action plans for each business area, which are reviewed regularly by the management board.

"It's so good to deal with a company who think about their customers. I am going into hospital for an operation and because of your help I can do so without the worry of late payments. Thank you so much."

- **98%** were satisfied with the speed of service
- **98%** said they would recommend FIRSTPLUS to a friend
- **97%** customer satisfaction overall

"It's not easy for a new lender to make an impact on the market, they need to offer something different," said Steve Hayes. "FIRSTPLUS offered the whole package: an innovative product, excellent staff and exceptional customer service."

From the outset we adopted the principles of the Business Excellence Model, the most widely used organisational framework in the world, and made continuous improvement our goal.

Our strategy was to sell both through brokers and direct to customers. We quickly became a household name through our television advertising featuring Carol Vorderman, our brand spokesperson. Loan brokers quickly came on board when they saw how we could satisfy an increasingly large number of their customers.

customers a strong backing from a nationally recognised name. They have very good customer service, way in excess of what we've been used to, a short turnaround time and an all-round strong offering."
Mark Bevan, Sharps Bedrooms

"To deal with a financial institution which returns your calls, delivers as promised on time, with a professional but friendly attitude is a phenomenon not seen before"
Customer comment

The FIRSTPLUS vision "To become the UK's leading specialist consumer lender and through the quality and dedication of our employees, surpass our customers' expectations, and become the envy of our industry peer group, by providing premium returns to our stakeholders."

Now FIRSTPLUS is an established leader in the loans marketplace, with a string of awards to our name. In 2001 we became the youngest ever company to win the Wales Quality Award, and in 2002 the CBI classified us as a world class company for the second year in a row.

Our business is now diversifying. In 2002 we entered the Home Improvement market, in partnership with blue chip companies like Everest, Zenith, Sharps and Dolphin. We made a rapid impact on the market by focussing on excellent people, service and technology.
